Need an offer for Employer Sponsorship in Australia?

Are you dreaming of working in Australia? Are you wanting to find an offer of employer sponsorship? You're not alone! We receive hundreds of enquiries each year from migrants wanting an offer of employer sponsorship. What we also see is that very few people are adequately prepared for this process, and as a result, they experience difficulties with securing an employment offer.

Australia continues to struggle through labour shortages across a broad range of sectors, and Australian businesses are increasingly looking to find internationally qualified and experienced candidates to fill their vacancies, particularly in regional areas.

However, many aspiring migrants miss out on opportunities because they aren't fully prepared to present themselves professionally to potential employers. But don't worry – we're here to help!

Our comprehensive **Get Ready Program** is designed to empower you, equipping you with the tools and guidance you need to engage confidently and professionally with prospective employers. With our expert assistance, you'll stand out from the crowd and take a significant step closer to securing that ultimate sponsorship offer.

Let us help you make your Australian dream a reality!

How do you get ready to be sponsored by an Australian employer?

Stage 1 - Professional Services

Provision of Advice

Regional Migration Australia will undertake a full assessment of your situation and advise on suitable visa options for you to consider. We can guide you on both temporary and permanent visa options including advice on whether you need a Skills Assessment.

Our services also include:

- Establishment of secure client portal.
- Provision of documentation requirements.
- Provision of client information questionnaire.

If you need a Skills Assessment, we can work with you to complete this critical stage of your migration strategy (costs will vary for skills assessment preparation, depending on the occupation).

Document Preparation CV and Covering Letter

Our office receives hundreds of enquiries from people looking for employer sponsorship in Australia. Unfortunately, most of the CVs we see are not well presented and are not formatted appropriately to attract Australian employers. In addition, most are not optimised with keywords to ensure selection by electronic recruitment software (used by most recruiters).

Our professional CV writer will draft your CV to target Australian employers. Once prepared, you will be in a good position to start applying for jobs with professionally prepared documents.

Advice on how to address Key Selection Criteria

Addressing Key Selection Criteria is a crucial part of applying for a job. Many applicants are unsure how to do this well, and as a result they may be missing out on valuable opportunities simply because they haven't addressed the selection criteria. We will provide you with information on how to appropriately address criteria to ensure you can submit the best possible covering letter to Australian employers.

Support Letter from Regional Migration Australia

We will provide you with a general support letter for potential Australian employers with information outlining the basic requirements for sponsoring an employee. The letter will identify you as a client of Regional Migration Australia and encourage the employer to contact us to discuss Employer Sponsorship. Employers can be reluctant to talk about their business directly with an applicant, so having a professional agent available to answer questions is extremely valuable, and will place you in a good position to be noticed by employers.

“ 5 star service from Regional Migration Australia!

Your Responsibilities

You will be responsible for applying for vacant positions

As part of our advice, we will provide you with a list of platforms that you can use to search for vacant positions. This will be a very good start, but you need to actively look at as many job sites as possible and do your research around potential job opportunities.

Connecting with Employers

Contacting employers directly can be a great way to access opportunities. When applying for roles, you will attach your Australian formatted CV and covering letter, along with the support letter from Regional Migration

Australia. Providing a professional point of contact for the business is a great way to give them access to the information they need to consider sponsoring you.

Commitment

Our **Get Ready Program** is designed to assist you with your sponsorship quest by giving you as much support as possible when looking for a sponsorship opportunity in Australia (for a period of up to 12 months).

The amount of effort you put in will influence your chance of success. You need to be proactive and committed. It can be challenging to secure an offer of employment, particularly if you live overseas. Finding sponsorship can take time, and it will involve a high level of commitment.

Having professional representation shows commitment to your migration plans and provides employers with a valuable point of contact to discuss employer sponsorship requirements.

“ Big Thank you to Regional Migration Australia for all the support and professional service for getting my Subclass 482 visa approved and making my dream come true. I 100% recommend using Regional Migration Australia agent of your visa process.

Stage 2 - Professional Services

Engagement with interested Australia employers

Employers who express interest in sponsoring you may contact us directly to discuss the requirements. We will advise obligations and documentation requirements, along with the business costs associated with sponsoring an employee.

We can help potential employers to understand the benefits of sponsorship. We will advise you when an employer has contacted our office regarding a potential opportunity.

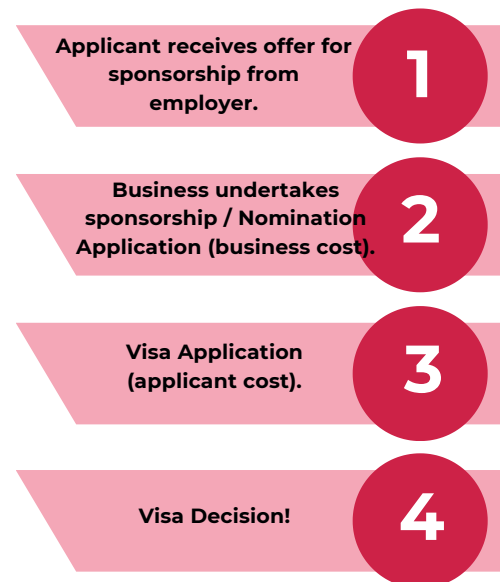

This representation can be extremely valuable as employers are more likely to engage with a qualified professional regarding the sponsorship process. This service will give you an advantage over other international applicants without representation.

Once you have secured an offer of employer sponsorship, we will work with you to prepare your visa application (for you and any secondary applicants) with the Department of Home Affairs.

We will:

- Advise on any updates to regulations or policy since commencement of Get Ready Program.
- Advise of current documentation requirements
- Review and provide feedback of your documentation and supporting evidence for visa application.
- Prepare draft visa application for your review.
- Prepare submission addressing key criteria for visa grant.
